LEADERSHIP CAMP

Shaping Leaders through Self-discovery & Reflection

**TWO DAYS UNPLUGGED.
MEET THE LEADER WITHIN.**

Ravugodlu, Bangalore

PRESIDENT'S NOTE

Leadership is not taught in classrooms alone. It is discovered in silence, tested in challenge and shaped in reflection. At NSB, we believe every student carries a leader within, one that emerges when given the right ground to stand on.

Dr. S R Sridhara Murthy
President, NSB Bangalore

THE VISION

Somewhere between the classroom and the boardroom lies a space we've long overlooked the ground where a young mind meets itself.

The NSB Leadership Camp at Ravugodlu is that ground. A purpose-built retreat where our students step outside the noise of city, syllabus and screen and step into the quieter work of becoming.

Here, we don't lecture leadership. We build the conditions for it to surface.

THE SITE

Set on the edge of forest at Ravugodlu, on land NSB calls its own.

Wake-up here is birdsong, not notifications. The training hall holds the day's work. The camping site turns the first night away from a familiar bed into the first step toward a familiar self. The walking track loops the perimeter built for the kind of thinking that doesn't happen at a desk. And the bonfire pit becomes a classroom after dark, where the day's arguments soften and the real conversations begin.

Every element has been designed with one intent: to hold a group of young leaders long enough for something to shift.

A DAY AT CAMP

TIMINGS	ACTIVITIES
06:00	Yoga On the mist grass
07:30	Breakfast Simply Organic
09:00	Leadership practicum
13:00	Lunch Unwind yourself over a refreshing lunch
15:00	Management Games Teams break. Teams rebuild
17:00	Hydration Break
19:00	Bonfire Explore your talent
21:00	Dinner
22:30	Relax & Reboot Sky opens. Star gazing to close

THE PROGRAMS

Life Skill Training Communication. Conflict. Decision-making under pressure. The skills that MBA syllabi assume you already have we teach them here, on ground, in real time.

Management Games Structured simulations that compress a semester's worth of team dynamics into an afternoon. Wins, losses, arguments, breakthroughs all in a setting where nothing can be Googled.

You'll leave with two things: a strategy that worked, and a story worth telling for years.

THE STILLNESS

- **The Fire** When the sun goes down, the batch comes together. Stories, songs, arguments that stop being arguments. The bonfire is where the camp becomes memory.
- **Yoga** Every morning begins with breath. Before strategy, before ambition – the body first.
- **Meditation** Guided sessions that turn the noise down long enough for a student to hear their own voice again.
- **Star Gazing** A closing ritual. Away from city light, the sky at Ravugodlu remembers what a sky is meant to look like. Perspective, delivered by the universe itself.

Start **Together.**
Leave as **Leaders.**
