This includes training in communication skills, presentation techniques, and project management. In the second semester, your abilities are reassessed, and further training is provided based on your needs.

In the third semester, you are given specialised training based on your areas of interest. Pre-placement workshops and induction of interview specific skills are also provided this semester. During the entire placement process, the management of NSB ensures that every small detail regarding personality development, academic progress and practical learning is taken care of.
